Sharma Ketan Umesh

Senior Backend Developer · Full-Stack Engineer

Mumbai, India / +91 91751 90931 / sharmaketann@gmail.com / sharmaketann.in / linkedin.com/in/sharmaketann / github.com/Sharmaketann

PROFILE

Backend-leaning full-stack engineer with **4+ years** building regulated financial and insurance products in Mumbai. Led the team behind an insurance Point of Sale platform and integrated **200+ carrier APIs** across 13+ providers; now building backend systems for an AI-driven algo-trading terminal. Strongest in **Node.js and TypeScript services, API integration and database design**.

EXPERIENCE

Senior Backend Developer · Wizzer AdvisorTech Pvt. Ltd.

Jan 2026 - Present

Mumbai, India · WealthTech — AI quant & algo trading terminal for registered investment advisors

- Building backend services for an AI quant and algo trading terminal that unifies market data, strategy backtesting and live execution in a single platform.
- Working across the platform's data and execution paths, supporting registered investment advisors, wealth-management firms and quant desks on an NSE/BSE-approved product.

Stack: Node.js · TypeScript · PostgreSQL · REST APIs · AWS

Full Stack Lead Developer · Insure Efficient

Nov 2023 - Dec 2025

Mumbai, India · Insurance technology

- Led the team that designed and shipped a scalable **Point of Sale portal** for Efficient Insurance Brokers, streamlining agent workflows and lifting user engagement **20%**.
- Integrated **200+ APIs across 13+ insurance carriers** into a single quote-and-issue flow, standardising inconsistent partner contracts behind one internal interface.
- Owned security and data integrity for backend systems, hardening services against common vulnerabilities and protecting policyholder data.
- Partnered with the Risk team on a suite of interconnected web applications, and with DevOps to keep backend services deploying cleanly on AWS EC2.
- Received an internal award for performance and contribution on the new POS portal.

Stack: Node.js · React · Redux · Express · TailwindCSS · MySQL · AWS EC2 · REST APIs

Full Stack Developer · Sapio Analytics

Sep 2022 - Oct 2023

Mumbai, India · Data & governance analytics

- Built full-stack features across client analytics products, refactoring existing codebases for performance, scalability and maintainability.
- Integrated third-party APIs and external data sources, unifying fragmented feeds into consistent application data.
- Led a small development team and mentored junior developers — scoping, delegation, code review and release quality.

Stack: React · Node.js · Express · REST APIs · MySQL · MongoDB

.NET Developer Intern · Ushyaku Software Solution

Jul 2021 - Oct 2021

Remote

- Rebuilt legacy ASP.NET interfaces, developed MS SQL tables, stored procedures and functions, and produced SSRS reporting with query tracing in SQL Profiler.

TECHNICAL SKILLS

LANGUAGES	TypeScript, JavaScript (ES6+), SQL, C#
BACKEND	Node.js, Express, NestJS, Elysia.js, REST API design, JWT authentication, .NET
FRONTEND	React, Next.js, Redux Toolkit, TailwindCSS, Recharts
DATABASES	PostgreSQL, MySQL, MongoDB, MS SQL Server
CLOUD & TOOLS	AWS (EC2, Amplify), Firebase, Git & GitHub, Postman, Jest, SendGrid
PRACTICE	Agile SDLC, code review, technical mentoring, stakeholder management

SELECTED PROJECTS

Ginger Fresh
MERN grocery commerce platform with PayPal checkout, JWT auth and bcrypt-secured accounts. React · Node · Express · MongoDB

Christ News
Real-time college news platform with live updates pushed over WebSockets.
TypeScript · React · Node · Socket.IO

TECHNICAL WRITING

Visualising Algo Trade Performance — Feb 2026
Equity curve and trade distribution charts in React and Recharts.

Uniform Responses in Elysia.js — Jul 2024
Middleware for consistent success and error contracts across an API.

Email Service in NestJS — Jun 2024
Transactional email with MJML, Handlebars and SendGrid.

EDUCATION

BBA, Computer Application — 2018 - 2021
Christ College, Pune University · 7.38 CGPA

CERTIFICATIONS

MongoDB University — MongoDB Basics · Crafting Conference Abstract

DataCamp — Intermediate SQL · Joining Data in SQL
